After such determination, the sufficiency of the petition shall not thereafter be subject to attack except in an action brought in a court of competent jurisdiction within 30 days after the adoption of the resolution determining such sufficiency. When the supervisor shall have completed the assessment roll, he shall affix thereto his certificate stating that it was made pursuant to a resolution of the township board adopted on a specified date, and that in making such assessment roll he has according to his best judgment conformed in all respects to the directions contained in such resolution and the statutes of the state of Michigan.

Special assessment; bonds.

The township board or boards acting jointly may provide that all or any part of the aforesaid sums for purchasing and housing of equipment or the operation thereof or contracting for protection may be defrayed by special assessment on all of the lands and premises in said township or townships to be benefited thereby, and may issue bonds in anticipation of the collection of said special assessments.

Special assessment; referendum.

The question of raising money by special assessment may be submitted to the electors of the affected area in the township or townships by the township board, or township boards acting jointly, and shall be submitted by the township board or township boards acting jointly on the filing of a petition so requesting, signed by at least 10% of the owners of the land in each of the affected townships, to be made into such a special assessment district, at any general election or special election called for that purpose by the township board or township boards acting jointly. 46.12a Group insurance, pension or retirement benefits for county employees; authority of board of supervisors to provide.

Sec. 12a. The said several boards of supervisors shall have power and they are authorized at any meeting thereof lawfully held:

Group insurance for employees and dependents.

First, To provide group life, health and accident and hospitalization insurance for the county employees of their respective counties, and of the several offices, boards and departments thereof, including the board of county road commissioners, and the dependents of such employees, either with or without participation in the cost thereof by the said employees, and to appropriate the necessary funds therefor.

Retirement plans; purchase, uniform benefits.

Second, To adopt and establish a plan whereby their respective counties shall purchase or participate in the cost of endowment policies or retirement annuities for the county employees of their respective counties and of the several offices, boards and departments thereof, including the board of county road commissioners, to provide monthly pensions or retirement benefits for each employee after he has attained the age of 60 years in an amount not to exceed $150.00 per month or 2% of the average monthly earnings of the employee for 5 years immediately preceding retirement times the years of service of the employee, whichever may be the lesser sum, or to adopt and establish a plan whereby their respective counties shall pay retirement benefits or pensions to the county employees of their respective counties and of the several offices, boards and departments thereof, including the board of county road commissioners, who have been so employed for not less than 25 years, or who have attained the age of 60 years, and have been so employed for not less than 5 years, to the extent of monthly payments equal to 2% of the employee's highest average monthly compensation or earnings received from said county or county road fund for any 5 years of service times the total number of years of service of the employee, including any fraction of a year not to exceed 3/4 the average final compensation of the employee. A plan may also pay early retirement benefits at ages not younger than 55 years to the extent of actuarially equivalent benefits not increasing the costs of the plan. Endowment policies, retirement benefits, pensions or annuity retirement benefits in excess of the amounts herein stipulated may be provided for by a plan of employee participation to cover the cost of such excess. If the employment or the pension or retirement benefits of any employee who has participated in the cost of such pension or retirement benefits shall be terminated before said employee has received pension or retirement benefits equal to the total amount of his participation, the balance of such total participation shall be refunded to said employee at the time of such termination, if living, or, if deceased, to his heirs or legal representative or designated beneficiary as provided in the plan adopted and established by the board of supervisors. Any plan adopted for the payment of retirement benefits or pensions under the provisions of this section shall grant such benefits to all employees eligible therefor according to a uniform scale for all persons in the same general class or classification and no employee shall be denied such benefits by termination of his employment after he has become eligible therefor under the provisions of said plan and this section. Endowment policies or annuities purchased pursuant to the provisions of this section shall be purchased from legal reserve companies authorized to write such endowment policies or annuities in this state.

Benefits, limitation; average final compensation; longevity pay.

times his years of service and shall be granted to each employee eligible for retirement under the provisions of such plan uniformly and without restriction or limitation other than such as are prescribed in this section. "Average final compensation" as used in this section shall mean the annual average of the highest actual compensation received by a county employee during either (i) a period of 5 consecutive years of service contained within his 10 years of service immediately preceding his retirement or (ii) any period of 5 years of service, as shall be specified in the plan. In counties having adopted a plan for granting "longevity pay", the board of supervisors may, in its discretion, exclude such "longevity pay" from average final compensation as above defined for the purpose of computing the rate of employee contribution and the amount of benefits payable to an employee upon retirement. "Longevity pay", as used in this section, shall mean increments of compensation payable at annual or semi-annual intervals and based upon years of service to the county, exclusive of compensation provided for any given class of positions.

Circuit court stenographers, eligibility.

Circuit court stenographers shall be eligible for membership in and the benefits of any pension or retirement benefit under any plan adopted and established pursuant to the provisions of this section, or any social security plan adopted by the county or any one of the counties which pays any portion of the compensation of a circuit court stenographer.

Termination of employment; continuance of eligibility, payment of benefits.

If the employment of any county employee eligible to receive a pension or retirement benefit under any plan adopted and established pursuant to the provisions of this section is terminated, after said employee has completed 8 or more years of service in county employment, said employee shall receive the amount of pension or retirement benefit to which such service would have entitled him under the plan established, provided such employee waives his right to a refund of his total participation upon the termination of employment; the payment of said pension or retirement benefit to begin, as provided in said plan, at any time after he would have become eligible for retirement under such plan had his employment not been terminated, but not later than 90 days after he shall have attained age 65 years. The payment of said pension or retirement benefit shall not begin until the employee has made application therefor in the manner prescribed in said plan so adopted and established.

Total disability; service connected disability or death; dependents.

Any plan adopted and established under the provisions of this section may provide for pensions or retirement benefits for county employees, who become totally disabled for work in the county service from any cause, after not less than 10 years of county employment, to the extent of the limitations heretofore provided in this section, and may also provide for pensions or retirement benefits to the extent of the limitations heretofore provided in this section or $400.00 per month, whichever may be the greater sum, for employees who become totally disabled for work in the county service from causes which are the direct and proximate result of county employment, to continue for the duration of such disability or until eligible for retirement pursuant to other provisions of such plan authorized by this section. Any such plan may also provide for pensions or retirement benefits, to the extent of the limitations heretofore provided in this section, for the actual dependents of any county employee who becomes deceased from any cause while still employed by the county after not less than 10 years of county employment and may also provide for pensions or retirement benefits to the extent of the limitations heretofore provided in this section or $400.00 per month, whichever may be the greater sum, for the actual dependents of any deceased

county employee whose death is the direct and proximate result of county employment. The plan adopted may provide that the period, from the end of the deceased or disabled employee's period of service to the date he would have become eligible for retirement, be used as a service for the sole purpose of computing the amount of disability or death pension.

County employee, defined; temporary employees; bailiffs.

The term "county employee," when used in this section is hereby defined to include all permanently appointed bailiffs of the common pleas court, bailiffs of the circuit court commissioners and all persons who receive more than 50% of all compensation for personal services, rendered to governmental units, from county funds or county road funds, except persons other than bailiffs of the common pleas court and bailiffs of the circuit court commissioners engaged for special services on a contract or fee basis. Provision may be made to exclude persons who are employed on a temporary basis and persons employed in positions normally requiring less than 1,000 hours, or some lesser specified number of hours, work per year. All persons included within the definition of "county employee" shall be deemed to be employed by said county for the purposes of this section. Common pleas court bailiffs and circuit court commissioner bailiffs shall not be eligible to receive benefits under this act until a plan has been adopted and established by law whereby the entire cost of such benefits shall be payable from charges on all legal instruments in which the processes of service by bailiffs is required and earmarked by law for such benefits. Such plan shall include provisions whereby bailiffs or former bailiffs who had served as bailiff as of January 1, 1967 may retire after 25 years of service regardless of age, with maximum benefits to be computed as follows: Starting as of January 1, 1969, the average of any 5 years of earnings of the previous 10 years served in succession before retirement multiplied by 1.9% times the years of service. County general fund shall not be chargeable for any part of the cost of any plan providing for a retirement fund for such bailiffs under this act.

Disabled employee, continuance of employment for retirement purposes.

Any employee while receiving a pension or retirement benefit because of disability, pursuant to the provisions of this section, may be considered as employed in the county service for the purpose of retirement under other provisions of this section.

Participants in other plans; inclusion.

Any county employee, who is included by law in any other pension or retirement system by reason of the compensation he receives from the county, may be excluded from any plan adopted and established under the provisions of this section or included only to the extent of the difference between benefits granted under this section and such other pension or retirement system.

Post-retirement redetermination of benefits.

Any plan adopted under the provisions of this section may provide for annual or less frequent post-retirement redetermination of pensions. The redetermined amount of pension shall be not greater than the amount of pension otherwise payable multiplied by the following percent: 100.0%, plus 3.0% for each full year, excluding any fraction of a year, in the period from the effective date of payments of the pension and the date as of which the redetermination is being made; nor shall the redetermined amount be less than the amount of pension otherwise payable. Any provision of this section which limits the amount of a pension shall not apply to the operation of this paragraph redetermining the amount of a pension. As used in this paragraph "the amount of pension otherwise payable" means the amount of pension which would be payable without regard to the provisions of this paragraph. The application of any provision redetermining pension amounts may be restricted to pensions having an effective date of payment either prior to or subsequent to a specified date.

Retirement age; forfeiture of benefits.

In any county pension or retirement plan adopted under the provisions of this section, the board of supervisors may require that all county employees, except elected or appointed officials, be retired from county service upon attaining an age designated in said plan which shall not be less than 65 years of age; or, the board of supervisors may in any such plan designate an age which shall not be less than 65 years of age, at which all county employees, including elected or appointed officials, shall cease to be members of the retirement system and provide that no county employee shall receive additional pension or retirement benefits because of service rendered after attaining the age so designated. The board may also provide that except in the case of becoming a beneficiary, all prior service and membership service which may have been credited to the person shall be forfeited by him at the time his membership terminates.

Cost of benefits; payment, contribution; reserves.

The cost of pension or retirement benefits for any county employee under the provisions of this section may be lawfully paid from the same fund from which the employee receives his compensation, and the several boards of supervisors shall have the power and are hereby authorized at any meeting thereof lawfully held to appropriate the necessary funds to carry out the purposes of this section. Whenever any county shall hereafter adopt and establish a plan whereby said county shall pay retirement benefits or pensions to its employees, pursuant to the provisions of this section, such county shall, in accordance with provisions therefor, which shall be incorporated in said plan, set up, establish and maintain reserves on an actuarial basis in the manner provided in this paragraph, sufficient to finance the pension and retirement and death benefit liabilities under the provisions of the plan and sufficient to pay the pensions and retirement and death benefits as the same become due. Any county which has heretofore adopted a retirement plan, under the provisions of this section, and has set up and established such reserves on an actuarial basis shall maintain same in the manner provided in this paragraph. Such reserves shall be determined by an actuarial valuation and set up, established and maintained by yearly appropriations by the county and contributions by employees. Such reserves shall be set up, established, maintained and funded to cover the pensions and other benefits provided for in said plan in the same manner and within the same limits as to time as is provided for Benefit Plan B in the "municipal employees' retirement act," being Act No. 135 of the Public Acts of 1945, as amended, being sections 38.601 to 38.667 of the Compiled Laws of 1948. All funds in such reserves so set up, established and maintained are hereby constituted trust funds and shall be used for no other purpose than the payment of pensions, retirement and other benefits and refunds of employees' contributions in accordance with the provisions of the plan adopted and established in any county. All employees' contributions shall be kept and accumulated in a separate fund and used only for the payment of annuities and refunds to employees. The provisions of this paragraph shall not apply to any county that has heretofore adopted a retirement plan under the provisions of this section and has not set up and established reserves on an actuarial basis before the effective date of this paragraph.

County pension plan committee, approval; financial statements; audit.

Any plan hereafter adopted and established by a county for the payment of pension and retirement benefits to its employees, under the provisions of this section, shall be approved as complying with the provisions of this section, as amended, by a county pension plan committee consisting of the auditor general, the state treasurer and the executive secretary of the state employees' retirement system, established under the provisions of Act No. 240 of the Public Acts of 1943, as amended, being sections 38.1 to 38.43 of the Compiled Laws of 1948, before the plan shall become effective or op-

Any such plan in effect at the time this amendatory section becomes effective shall be approved by said county pension plan committee as complying with the provisions of this section, as amended, within 1 year after the effective date hereof, and each county retirement plan operating under the provisions of this section shall be approved by said committee as complying with the provisions of this amendatory section biennially thereafter. A financial statement for each county retirement plan operating under the provisions of this section shall be submitted annually to the said county pension plan committee by such county board, official or employees as the board of supervisors may designate and said financial statement shall be in such form, contain such information and be submitted as the county pension plan committee shall prescribe. The auditor general shall audit the funds and accounts of county retirement plans adopted and established under the provisions of this section in the same manner as he audits other county accounts and may audit and investigate said county retirement plan funds and accounts to the extent necessary to effectuate the purposes of this section, as amended. The provisions of this paragraph shall not apply to any county that has heretofore adopted a retirement plan under the provisions of this section and has not set up and established reserves on an actuarial basis before the effective date of this paragraph.

Administration; investments; voluntary contributions.

Whenever any county shall adopt and establish a plan for the payment of pensions and retirement benefits to its employees, pursuant to the provisions of this section, the board of supervisors of that county shall have the authority to provide for a board of trustees to administer the plan and for the manner of election or appointment of the members of said board of trustees. The board of supervisors is hereby authorized to grant authority to said board of trustees to fully administer and operate said plan and to deposit, invest and reinvest the funds and reserves thereof within the limitations prescribed by the board of supervisors in said plan. The board of supervisors is hereby empowered to authorize the investment of funds of a county retirement plan established under the provisions of this section in anything in which the funds of the Michigan "state employees' retirement system" or the funds of the "municipal employees' retirement system" may be invested, pursuant to the provisions of Act No. 240 of the Public Acts of 1943, as amended, and Act No. 135 of the Public Acts of 1945, as amended. Any county retirement plan adopted and established under the provisions of this section may provide for financing, funding and the payment of benefits in the same manner and to the same extent as is provided for in Act No. 240 of the Public Acts of 1943 and Act No. 135 of the Public Acts of 1945, both as amended, and any such county retirement plan may provide for and require contributions by county employees, and may permit additional employee contributions on a voluntary basis.

Such person so complaining as against the action of such board, may, within 30 days after receiving notice in writing from the clerk of such board of supervisors of any county that any road has been laid out, altered or discontinued across lands owned by him, go before any justice of the peace in said township where such land is located and file with such justice a petition setting forth the fact of the laying out, altering or discontinuing of such road running through lands owned by him, whereby he has been, or is likely to be damaged, and further praying the court that a venire be issued summoning a jury of 12 freeholders of said township to determine the necessity of laying out, altering or discontinuing said highway, and the taking of private property therefor, and the amount of such damage he has sustained, or is likely to sustain from the action of such board as aforesaid. Sec. 4. Whenever the board of supervisors of any county has authorized and directed the establishment of any of the improvements, facilities or services authorized by this act, the county agency shall establish just, equitable and uniform rates, charges and/or assessments to be paid to such county for the services rendered thereby. The county agency may enter into similar agreements with the county drain commissioner on behalf of any drain district, or with the drainage board on behalf of any inter-county drainage district, for the connection of any drain with any county sewer or sewage disposal system and for the collection by the county of tapping charges, rates and charges for the services of such county system from the users or beneficiaries thereof through connection with such drain. The county agency or such units of government in accordance with such agreements shall have the right to shut off such services and deny the use of such improvements or facilities to any user or beneficiary thereof failing to pay any of the rates, charges or assessments as fixed. Where such refunding is provided for by the contract, any bonds issued pursuant to section 5(c) of this act may be issued and sold in a sufficient amount to provide additional funds over and above acquisition and construction costs of the new improvements or facilities to enable the contracting city, village or township to retire such outstanding revenue bonds.

46.175c Contracts; county issuance of bonds, additional security; advancements, reimbursement, terms; validation of prior drain orders or bonds.

Sec. 5c. For the purpose of obtaining funds for the acquisition and construction of the improvements or facilities authorized by this act, the county after the execution of the contract or contracts authorized by sections 5a and 5b of this act, upon ordinance or resolution adopted by its board of supervisors, may issue its negotiable bonds secured by the full faith and credit pledges made by each contracting city, village and township pursuant to authorization contained in this act and the contract or contracts entered into pursuant to said sections 5a and 5b. Said bonds shall be serial bonds, payable in annual installments, for a period of years not exceeding 40 and shall be issued and sold, subject to all other applicable provisions of Act No. 202 of the Public Acts of 1943, as amended, being sections 131.1 to 138.2 of the Compiled Laws of 1948, including the requirement that the permission of the commission shall be given to the issuance of bonds, but bonds heretofore issued under this section shall be valid notwithstanding the lack of such permission. Said bonds shall not pledge the full faith and credit of the issuing county except as hereinafter provided. As additional security for the payment of the principal of and interest on any bonds issued under the provisions of this section, any issuing county may, upon proper resolution adopted by a majority vote of the members-elect of its board of supervisors, pledge the full faith and credit of the county for the prompt payment of the principal of and interest on such bonds. In the event the county shall be required to advance any money by reason of such pledge on account of the delinquency of any contracting city, village or township then it shall be mandatory for the county treasurer to deduct and withhold from any moneys the use of which is not specifically restricted for other purposes by law and which shall subsequently come into his hands belonging to such delinquent city, village or township, an amount sufficient to reimburse the county for any such advancement, but the county treasurer shall not withhold in any one year a sum greater than 25% of the total amount owed the county by such delinquent city, village or township on account of such advancements. Such moneys, when so withheld by the county treasurer, shall be paid into the general fund of the county. The right of deduction given the county by this statute shall not operate to limit the county's right to pursue any other legal remedies for the reimbursement of moneys advanced hereunder. The ordinance or resolution authorizing the issuance of said bonds shall have embodied therein the terms of the contract or contracts authorized by sections 5a and 5b of this act. The provisions of sections 5a, 5b and 5c of this act shall be construed as an additional and alternative method for the acquisition, construction and financing of the improvements or facilities contemplated by this act, and shall not affect the other provisions of this act relating thereto. Any improvements and facilities contemplated by this act may be acquired, constructed and financed in part under the provisions of sections 5a, 5b and 5c and in part under other sections of this act. This act shall not validate any drain orders or bonds issued prior to April 30, 1954.

Except to the extent herein authorized such bonds shall not impose any liability upon the county but shall be secured only by the revenues of such improvements or facilities. As additional security for the payment of the principal of and interest on any revenue bonds issued pursuant to the provisions of this section, any issuing county, upon proper resolution adopted by a 2/3 vote of all the members of its board of supervisors, irrevocably may pledge the full faith and credit of the county for the prompt payment of the principal of and interest on such bonds. If a petition for a referendum on the matter of said pledge shall be filed with the county clerk within 60 days after the vote of the board of supervisors thereon, signed by 10% of the electors in the county who voted for governor at the last presidential election, then said full faith and credit pledge shall cease to be effective until such time as the same has been approved by a majority of the electors of the county qualified under section 4, article 3 of the constitution, voting thereon at a regular or special election. The county shall be reimbursed for any moneys paid by reason of such pledge out of the first revenues available therefor not necessary to meet the requirements established in the ordinance authorizing the issuance of the revenue bonds. If the person sought to be removed or reduced shall demand it, the civil service commission shall grant him a public hearing, which hearing shall be held within a period of 10 days from the filing of the charges in writing and a written answer thereto. Sec. 2. (1) As established for use in the north zone, the Michigan coordinate system shall be named, and in any land description in which it is used it shall be designated the Michigan coordinate system, north zone.

(2) As established for use in the central zone, the Michigan coordinate system shall be named, and in any land description in which it is used it shall be designated the Michigan coordinate system, central zone.

(3) As established for use in the south zone, the Michigan coordinate system shall be named, and in any land description in which it is used it shall be designated the Michigan coordinate system, south zone.

HISTORY: New 1964, p. 15, Act 9, Eff. Aug. 28.

54.233 Michigan coordinate system; use of plane coordinates.

Sec. 3. The plane coordinates of a point on the earth's surface, to be used in expressing the position or location of such point in the appropriate zone of this system, shall consist of 2 distances, expressed in American survey feet and decimals thereof. One of these distances, to be known as the "x-coordinate", shall give the position in an east and west direction; the other, to be known as the "y-coordinate", shall give the position in a north and south direction. These coordinates shall be made to depend upon and conform to the coordinates, on the Michigan coordinate system, of the triangulation and traverse stations of the United States coast and geodetic survey within this state, as those coordinates have been determined by the survey.

54.234 Michigan coordinate system; land description of overlapping zones.

Sec. 4. When any tract of land to be defined by a single description extends from 1 into another of the above coordinate zones, the positions of all points on its boundaries may be referred to either of the 2 zones, the zone which is used being specifically named in the description.

HISTORY: New 1964, p. 15, Act 9, Eff. Aug. 28.

54.235 Michigan coordinate system; definition.

Sec. 5. (1) For the purposes of more precisely defining the Michigan coordinate system the following definition by the United States coast and geodetic survey is adopted:

(a) The Michigan coordinate system, north zone, is a Lambert conformal projection of the Clarke spheroid of 1866, magnified in linear dimension by a factor of 1.0000382, having standard parallels at north latitudes 45 degrees 29 minutes and 47 degrees 5 minutes, along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 87 degrees zero minutes west of Greenwich and the parallel 44 degrees 47 minutes north latitude. This origin is given the coordinates: x= 2,000,000 feet and y=0 feet.

(b) The Michigan coordinate system, central zone, is a Lambert conformal projection of the Clarke spheroid of 1866, magnified in linear dimension by a factor of 1.0000382, having standard parallels at north latitude 44 degrees 11 minutes and 45 degrees 42 minutes, along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 84 degrees 20 minutes west of Greenwich and the parallel 43 degrees 19 minutes north latitude. This origin is given the coordinates: x=2,000,000 feet and y=0 feet.

(c) The Michigan coordinate system, south zone, is a Lambert conformal projection of the Clarke spheroid of 1866, magnified in linear dimension by a factor of 1.0000382, having standard parallels at north latitude 42 degrees 6 minutes and 43 degrees 40 minutes along which parallels the scale shall be exact. The origin of coordinates is at

(2) The position of the Michigan coordinate system shall be as marked on the ground by triangulation or traverse stations established in conformity with standards adopted by the United States coast and geodetic survey for first-order and second-order geodetic control surveys, whose geodetic positions have been rigidly adjusted on the North American datum of 1927, and whose coordinates have been computed on the system herein defined. Any such station may be used for establishing a survey connection with the Michigan coordinate system.

HISTORY: New 1964, p. 15, Act 9, Eff. Aug. 28.

54.236 Coordinates; condition for use when recording.

Sec. 6. No coordinates based on the Michigan coordinate system, purporting to define the position of a point on a land boundary, shall be presented to be recorded in any public land records or deed records unless such point is within 1/2 mile of a triangulation or traverse station established in conformity with the standards prescribed in section 5 of this act.

HISTORY: New 1964, p. 16, Act 9, Eff. Aug. 28.

54.237 Coordinates; use on maps, surveys and documents.

Sec. 7. The use of the term Michigan coordinate system on any map, report of survey, or other document, shall be limited to coordinates based on the Michigan coordinate system as defined in this act.

HISTORY: New 1964, p. 16, Act 9, Eff. Aug. 28.

54.238 Coordinates; supplemental use for plat description, conflict.

Sec. 8. Wherever coordinates based on the Michigan coordinate system are used to describe any tract of land which in the same document is also described by reference to any subdivision, line, or corner of the United States public land surveys, or to any subdivision plat duly recorded in accordance with Act No. 172 of the Public Acts of 1929, as amended, being sections 560.1 to 560.80 of the Compiled Laws of 1948, the description by coordinates shall be construed as supplemental to the basic description of such subdivision, line, or corner contained in the official plats and field notes filed of record, and in the event of any conflict the description by reference to the subdivision, line, or corner of the United States public land surveys, or recorded subdivision plat, shall prevail over the description by coordinates.

HISTORY: New 1964, p. 16, Act 9, Eff. Aug. 28.

54.239 Coordinate land description not exclusive.

Sec. 9. Nothing contained in this act shall require any purchaser or mortgagee to rely on a description, which depends exclusively upon the Michigan coordinate system.

When such assessment is to be made upon lots in proportion to their frontage upon the improvement, if from the shape or size of any lot an assessment thereon in proportion to its frontage would be unjust and disproportionate to the assessment upon other lots, the council or board of assessors making the assessment may assess such lot for such number of feet frontage as in their opinion will be just.

104.8 Assessment roll preparation.

Sec. 8. Upon receiving such order and directions, the board of assessors shall make out an assessment roll, entering and describing therein all the lots, premises and parcels of land to be assessed, with the names of the persons, if known, chargeable with the assessments thereon; and shall levy thereon and against such persons the amount to be assessed, in the manner directed by the council and the provisions of this act, applicable to the assessment; and if the several descriptions thus to be assessed in any special assessment district shall extend into more than 1 ward of the city, the board of assessors shall enter the several descriptions situated in any 1 ward by themselves, separate from those of the others. In all cases where the ownership of any description is unknown to the board of assessors, they shall, in lieu of the name of the owner, insert the name "Unknown"; and if by mistake or otherwise any person shall be improperly designated as the owner of any lot, parcel of land or premises, or if the same shall be assessed without the name of the owner, or in the name of a person other than the owner, such assessment shall not, for any such cause, be vitiated, but shall, in all respects, be as valid upon and against such lot, parcel of land or premises as though assessed in the name of the proper owner, and, when the assessment roll shall have been confirmed, be a lien on such lot, parcel of land or premises, and collected as in other cases.

If the assessment is directed to be according to benefits, they shall assess upon each lot such relative portion of the whole sum to be levied as shall be proportionate to the estimated benefit resulting to such lot from the improvement. When the board shall have completed the assessment they shall report the same to the council; such report, to be signed by at least 2 of the assessors, may be in the form of a certificate, indorsed on the assessment roll, as follows:

MUNICIPAL OBLIGATIONS: Regulation, see Act 202 of 1943, being Compilers' § 131.1 et seq.

110.20 Public improvements; increase of funds by electors; limit.

Sec. 20. (1) Should any greater amount be required in any year for the purpose of erecting public buildings, or for the purchase of ground therefor, or for other public improvements or purposes, to be paid for from the general funds of the city, than can be raised by the council under the foregoing provisions of this chapter, such amount may be raised by tax or loan, or partly by tax and partly by loan, if authorized by a majority of the electors voting upon the question at an annual city election or special election called for such purpose. The amount that may be voted or raised by tax in any year under the provisions of this act, shall not exceed 2% of the assessed valuation of the real and personal property in the city as shown by the last preceding tax rolls made therein.

Bond limits.

(2) The amount which may be voted or raised by bonds shall not cause the net bonded indebtedness incurred for all public purposes at any time to exceed 10% of the assessed valuation of the real and personal property in the city subject to taxation as shown by the last preceding assessment roll of the city. In case of fire, flood or other calamity, the legislative body may borrow for the relief of the inhabitants of the city and for the preservation of municipal property, a sum of not to exceed 1/4 of 1% of the assessed valuation of the real and personal property in the city, subject to taxation as shown by the last preceding assessment roll of the city, which shall be due in not more than 3 years, even if such loan would cause the indebtedness of the city to exceed the foregoing limitation. In computing the net bonded indebtedness, bonds issued in anticipation of the payment of special assessments, even though they are also a general obligation of the city, mortgage bonds which are secured only by mortgage on the property, revenues or franchise of a public utility shall not be included and moneys on hand in a fund pledged for the retirement of principal only of any outstanding bonds included in the net bonded indebtedness, including securities on hand representing investments of those moneys in any such fund, shall also be deducted from the amount of the bonded indebtedness.

Equalized assessed valuation.

(3) Assessed valuations as finally determined by the process of equalization shall be used in computing the foregoing limitations. Such limitations shall apply to future taxes and loans, notwithstanding that the approving election was held when lower limitations were in effect which would have been exceeded by the voted tax or loan, and any such election is validated insofar as concerns the amount of tax or loan so voted.

where the territory proposed to be annexed is adjacent to the city and consists of property owned by the city or consists of fractional parts of platted subdivision lots, located in an adjoining city, village, or township, such annexation may also be accomplished by the affirmative majority vote of the legislative body of such city and the approval of the legislative body of such adjoining city, village or township. As an alternate method, where there are no qualified electors residing in the territory proposed to be annexed to the city, other than the person or persons petitioning, a petition signed by a person or persons, firms, corporations, the United States government, or the state or any of its subdivisions who collectively hold the record legal title to more than ½ of the area of the land in the territory to be annexed is filed with the city council of the city and with the township board of the township in which such territory is situated, such annexation may be accomplished by the affirmative majority vote of the city council of such city and the approval of the township board of such township. At least 10 days prior to the approval by the township board, the township treasurer shall notify, personally or by registered mail with return receipt demanded, the owners of all real property in the territory to be annexed as shown on the assessment rolls of the township at the last known address on file with the township treasurer. This section shall not be construed so as to give any city the authority to proceed hereunder to attach territory from any other city unless the question relative thereto has been voted upon by the voters of the entire cities affected, except as hereinbefore specifically provided, where the territory proposed to be annexed is adjacent to a city and consists of property owned by the city or consists of fractional parts of platted subdivision lots, located in an adjoining city.

(9) The provisions of section 14 shall not be applicable to an annexation approved by the commission of part of a township or village to a city except in the event of outstanding bonds or other evidences of indebtedness of the township or village. In such event, the commission shall determine and order an equitable division of assets and liabilities which relate to the bonds or other indebtedness.

(10) The provisions of sections 8 and 8a shall not be applicable to petitions or resolutions filed with the state boundary commission.

(11) On and after the effective date of the 1970 amendments to this section, and so long as Act No. 191 of the Public Acts of 1968 is in effect, annexation of territory from a township or village to a home rule city shall be as provided in this section and no other means of annexation shall be effective.

Sec. 9a. (3) In the absence of such federal census and in lieu of an official special census determining the respective populations of the municipalities affected by such incorporation, the newly incorporated city and each township from which the same was incorporated, may agree, by joint resolution, as to the prorating between them and between the city and any county agency receiving state funds, moneys or grants in respect of population in such township or townships of any funds, moneys or grants distributable by the state, a certified copy of which joint resolution shall be filed with the secretary of state and shall thereafter be binding upon all parties affected by said incorporation.

Annexation to a city; division of state funds payable to territory annexed; census, special census, joint proration agreement.

Whenever a part of a city, village or township is annexed to a city, the city to which such territory is annexed shall be entitled to its proper pro rata share of any of the said state funds, moneys or grants thereafter distributable under the law to the city, village or township from which said territory was detached or to any county agency receiving state funds, moneys or grants in respect to population in such township or townships, determined as follows:

(1) According to ratio of population between the area annexed and the remainder of the township, city or village from which said area was detached, as determined by the latest official federal or state census showing such populations;

(2) If there be no official census by which said respective populations can be determined, then a census shall be taken of the territory detached and the remainder of the territory in the township, city or village from which it was detached as provided above in the case of a newly incorporated city;

(3) In the absence of such federal census and in lieu of taking an official special census, the city to which said territory was annexed and the cities, townships, or villages from which said territory was detached, may agree by joint resolution of their governing bodies as to the prorating of any such state funds, moneys, or grants between them and between the city and any county agency receiving said funds, moneys, or grants in respect to population in such township or townships as provided above in the case of a newly incorporated city, a certified copy of which joint resolution shall be filed with the secretary of state and shall thereafter be binding upon all parties to said incorporation.

State funds; distributions affected.

The foregoing provisions shall be used hereafter in determining the pro rata distributions of any state funds, moneys or grants between townships or county agencies and any city which has become newly incorporated or annexed territory since the latest decennial federal census, either before or after the passing of this law; but in no event shall the sharing of any distribution of state funds, moneys or grants made previous to the effective date of this act be altered.

Indebtedness and liabilities; annexation; division on basis of assessed valuation.

The indebtedness and liabilities of every city, village and township, a part of which shall be annexed to a city shall be assumed by the city to which the same is annexed in the same proportion which the assessed valuation of the taxable property in the territory annexed bears to the assessed valuation of the taxable property in the entire city, village or township from which such territory is taken. Assessed valuation shall be determined in every division pursuant to this section from the last assessment roll of the city, village or township which has been confirmed by the board of review.

Upon receipt of any such petition by any county clerk, the board of supervisors of such county, the county clerk, and the clerks of the city and township or townships affected shall be governed by and do and perform all acts required to be performed by them by sections 8, 9, 10 and 12 of this act with respect to calling and holding an election upon the question petitioned for, the same as though the question were upon the annexation of a part of a city to a township, except that the electors of the city and of the township to be affected shall each vote separately, unless 2 or more townships are to be affected, in which case the votes cast in all such townships shall be cumulated and the result of the election on such question in such townships determined by the total vote therein which is cast for and against such question. In case a 2/3 majority of the qualified electors of such city shall vote in favor of the vacation of the incorporation of the same and a majority of the qualified electors of the township or townships to be affected shall vote in favor of the annexation of the territory of such city to such township or townships, the county clerk shall, within 30 days after the canvass of such votes, make and certify 4 transcripts of all the proceedings in the matter and shall file 2 of such transcripts in the office of the secretary of state and the other 2 copies in his own office, and, upon such filing, the incorporation of such city shall be vacated and the territory thereof annexed to the township or townships from which such territory was detached at the time of the incorporation thereof and by subsequent annexations. Upon the vacation of the incorporation of any city, it shall be the duty of the officers of such city forthwith to deposit all books, papers, records and files relating to the organization of, or belonging or pertaining to such city, which are in their custody as such officers with the county clerk of the county in which such city is located, for safekeeping and reference. The assets of any city, the incorporation of which has been vacated, which have not been set aside or encumbered by the city for the payment of the funded debt or other outstanding obligations of the city, shall become the property of the township to which the territory of the city is annexed, or, if annexed to 2 or more townships, of said townships pro rata according to the assessed value of the portions of the city annexed to each of the townships as shown on the last assessment rolls of the city which were approved by the board of review of the city prior to the vacation of incorporation. The city clerk of such city shall certify to the board of supervisors of the county in which such city is located a statement of all outstanding debt and other obligations at the time the incorporation of such city was vacated, together with an accounting of all moneys on hand for the payment of such debt and other obligations. Said board of supervisors shall proceed to examine the same and shall pass a resolution authorizing the disbursement of such moneys and the assessment and collection of taxes within the area which had comprised the city for the purpose of paying such debt and other obligations in accordance with the conditions set forth in any bond or other instrument by which such debt or other obligations were incurred or secured. Upon the vacation or discontinuance of any city incorporation, under the preceding sections, the indebtedness of such city, whether bonded or otherwise, if any there be, shall be assessed, levied and collected upon the territory embraced within the boundaries of such city immediately prior to such vacation. It shall be the duty of the supervisor or supervisors of the township or townships in which the territory formerly embraced within the limits of any vacated city within 1 year from the date of the vacation of such city, except when such indebtedness falls due at some specified time, in which case such assessment shall be made so as to meet such indebtedness when the same falls due, to levy upon the assessment roll or rolls of his township upon the property formerly embraced within the limits of such city, the indebtedness of such city, or such portion of the same as shall be apportioned to the part of the territory formerly constituting such city as lies within his township as hereinafter provided. The taxes so assessed and levied shall be collected the same as other taxes, and shall be placed in a separate fund and applied to the payment of such indebtedness and the manner of the payment of such indebtedness shall be fixed by the board of supervisors in the resolution to be passed by said board for such purpose. The members of the commission so elected shall take the constitutional oath of office, and shall have power to fill vacancies in their membership, and 5 or more of them shall constitute a quorum. The charter commission shall convene within 10 days after election and frame a charter for said proposed city within 90 days thereafter. It shall choose its own officers, determine the rules of its proceedings and keep a journal. A roll call of its members on any question shall be entered on the journal at the request of any member. It shall provide the manner of nominating the candidates for the first elective officers provided in the proposed charter. It shall fix the date of the first city election, and do and provide all other things necessary for making such nominations and holding such election. Such election may be held at a special election or on the same date as a general election. 121.16 Taxes; rates, assessment, levy, collection, subjects.

Sec. 16. The authority shall levy each year a sufficient tax, taking into account the probable delinquency in tax collections, to pay the principal and interest on all bonds lawfully issued by the authority under the provisions of this act, maturing prior to the next tax collection period. If on July 1 of any year, there are funds on hand in the debt retirement fund earmarked for the payment of principal and interest on the bonds, then the annual tax levy shall be in such amount as will produce sufficient funds, taking into account the earmarked funds on hand, to pay the principal and interest on the bonds maturing prior to the next tax collection period. The tax for the purpose of paying the bonded indebtedness shall be unlimited as to rate or amount. Such tax rate shall be uniform for all territory comprising the authority. The tax rate for all cities which are members of the authority shall be based and assessed upon the current state equalized valuation of such cities. The tax rate for all villages which are members of the authority shall be based and assessed upon that portion of the state equalized valuation of the whole township in which such village is located as the assessed valuation of such village bears to the assessed valuation of the whole township in which such village is located, as determined by the township board of review. The tax rate for all townships which are members of the authority shall be based and assessed upon the current state equalized valuation of the township, but in those townships in which there are 1 or more villages which are also members of the authority the tax rate shall be based and assessed on the state equalized valuation of such township less the proportion of the state equalized valuation of such township which the total assessed valuation of such village or villages, as determined by the township board of review, bears to the total assessed valuation of such township as a whole, as determined by the township board of review. In determining the tax rate, the authority shall use the state equalized valuation determined and fixed as of July 1 of each year. On or before August 1 of each year, the authority, by its board of commissioners, shall certify to the tax collecting officers of each city and township comprising the authority, the tax rate determined by it to be necessary for the above purposes, and the tax collection officers shall include the tax rate as a separate item in the next county tax levied in the city or township. All such taxes shall be assessed, levied, collected and returned in the same manner as county taxes under the property tax laws of the state, shall have the same priority rights and bear the same interest and penalties as county taxes. In the levy and collection of such taxes, the tax collecting officials of the cities and townships comprising the authority, and the county treasurers in the event such taxes are returned delinquent, shall be deemed to be acting as agents for and on behalf of the authority. All moneys collected by any tax collecting officer from the tax levied under the provisions of this act shall be transmitted as collected to the authority and used by it solely for the payment of principal and interest on its bonds issued in accordance with the provisions of this act. Any village which is a part of the authority shall be considered a part of the township in which it is located for the purposes of this section, if the township is a part of the authority. If any village which is a part of the authority is located in a township which is not a part of the authority, the authority shall certify to the township treasurer of the township in which the village is located, the tax rate as above determined, and the taxes shall be levied and collected as a part of, and as an independent item in the county tax bills levied in the village. The subjects of taxation for the authority purposes shall be the same as for state, county and school purposes under the general law.

(4) Shall have been for a period of 3 years next preceding the filing of the petition provided for in section 2 hereof, used for agricultural purposes only.

HISTORY: New 1949, p. 133, Act 123, Eff. Sep. 23.

123.32 Disconnection of farm land from city or village; petition, filing, contents; determination of court; denial.

Sec. 2. The owner or owners of any such area of land who desire such disconnection shall file a petition in the circuit court of the county where the land, or the greater part thereof, is situated, and in such petition shall allege facts in support of such disconnection. The particular city or village shall be made defendant, and it, or any taxpayer resident in such municipality, may appear and defend against such petition. If the court finds that the allegations of the petition are true and that the petitioner has met the qualifications as set forth in section 1 hereof, then such area of land shall be entitled to disconnection under the provisions of this act, and the court shall order said land disconnected from such city or village. In case of the disconnection from a city of any land which previously constituted a part of 1 or more townships, such land shall thereupon attach to and become a part of such township or townships, which shall be specified in the judgment. In case of the disconnection of any other land, the court shall determine and specify in the judgment what township or townships such land shall attach to and become a part of: Provided, however, That if by reason of city or village owned sewers, sidewalks, highways, water mains, gas mains, or other public improvements, upon or abutting said property, it would be inequitable to such city or village to grant said petition, in such case only may the court in its discretion deny the same even though petitioner has met the qualifications set forth in section 1 hereof.

123.33 Disconnection of farm land from city or village; assessment for bonded indebtedness; division as between municipalities; sale for delinquent taxes.

Sec. 3. The disconnection of any such area of land shall not exempt it from taxation for the purpose of paying any bonded indebtedness contracted prior to the filing of such petition by the corporate authorities of the city or village, but such land shall be assessed and taxed for this purpose until such indebtedness is completely paid, the same as though not disconnected. The division of said indebtedness as between the municipalities involved shall be according to the provisions of Act No. 38 of the Public Acts of 1883, as amended, being sections 123.1 to 123.11, inclusive, of the Compiled Laws of 1948. Such disconnection shall not affect the lien upon any property for taxes for county, township, school, city or village purposes, or special assessments which have been levied thereon prior to such disconnection. Such disconnection shall not prevent the sale of any such land or parcels of land for delinquent taxes due to such county, township, school district, city or village at any regular state tax sale held in the manner provided by law, or at any regular tax sale of a city or village which, by its charter, has the right to sell lands for unpaid taxes or special assessments.

AN ACT to authorize the cities and villages of this state to provide for the lighting of their streets and other public places therein by means of electric or other lights.

The People of the State of Michigan enact:

123.91 Lighting works; construction, operation, maintenance, contract power.

Sec. 1. That it shall be lawful for any city or incorporated village in this state to acquire by purchase or to construct, operate and maintain works for the purpose of supplying such cities or villages and the inhabitants thereof with gas, electric or other lights, or to contract for the furnishing thereof at such times and on such terms and conditions as the common council of any such city or the board of trustees in any such village shall direct.

HISTORY: CL 1897, 3437;—CL 1915, 3426;—CL 1929, 2411;—CL 1948, 123.91.

This act seems to have been intended to supersede Act 115 of 1891, p. 134, on same subject. The only essential difference between the two acts is that this act provides for contracts for furnishing light as well as construction of works by municipality. In section 1, clause "or to contract for the furnishing thereof," is inserted. In section 2, clause "or when such common council shall deem it expedient to contract for the lighting of such cities and villages, with electric or other lights," is inserted, and all after first proviso added. In section 3, vote required of electors is made "a majority," instead of "two-thirds," and proviso added. The title of this act however, does not mention "inhabitants," as does Act 115, 1891. But see Compilers' § 123.101.

DISPOSAL: Lighting works of villages, fourth and fifth class cities, see Act 261 of 1925, being Compilers' § 123.81 et seq.

123.92 Expediency resolution of council; contracts, time limit; submission of purchase, construction to electors; governing rules.

Sec. 2. Whenever the common council of any city or the board of trustees of any village shall, by resolution, declare that it is expedient for such city or village to acquire by purchase or to construct as the case may be, works for the purpose of supplying such city or village and the inhabitants thereof with gas, electric or other lights, or when such common council shall deem it expedient to contract for the lighting of such cities and villages with electric or other lights, then such common council or the board of trustees of any village or city shall have power to take such action as shall be deemed expedient to accomplish such purpose, provided such action shall be governed by the provisions of Act No. 5 of the Session Laws of 1870, approved August fourth, 1870 as amended, entitled, "An act to authorize the introduction of water into and the construction or purchase of hydraulic works in the cities and villages in the

123.93 Petition of election to come under act; referendum; approval, effect; scope of act limited.

Sec. 3. Whenever 100 or more of the qualified electors of any city or village in this state shall petition to the common council of such city or the board of trustees of such village, to submit to the electors thereof the question of whether or not said city or village shall avail itself of the provisions of this act, it shall be the duty of such common council or board of trustees as the case may be, to submit such question to the electors of such city or village at its next regular election therein, and in case a majority of the electors shall vote in favor of such city or village availing itself of the provisions of this act, it shall thereupon become the duty of the common council of such city, or the board of trustees of such village, to take such action as shall be necessary to carry such resolution into effect in the same manner and with the same effect as if such common council or board of trustees had, by resolution, declared the same to be expedient as provided for in section 2 of this act: Provided, however, That the provisions of this act, so far as the same applies to the purchase, or construction or operation or maintenance of works for the purpose of supplying such city or village, or the inhabitants thereof, with public lights, as hereinbefore provided for, shall not apply to cities having more than 25,000 inhabitants.

All such bonds shall be, and shall have and are hereby declared to have all the qualities and incidents of, negotiable instruments under the negotiable instruments law of the state. Said bonds shall be exempt from all taxation, state, county and municipal, and unless otherwise provided by law, shall be lawful investments of sinking funds of the state and municipalities and political subdivisions thereof. The financing of such plant will be awarded to the bidder presenting the plan which appears to the legislative body to be to the best interest of the municipality.

If no bids satisfactory to the legislative body are received, the bonds may thereafter be sold at private sale. If the proceeds of the bonds, by error of calculation or otherwise, shall be less than the cost of the works, additional bonds may in like manner be issued to provide the amount of such deficit and, unless otherwise provided in said ordinance or in a resolution passed prior to the issuance of the bonds first issued or in the trust indenture hereinafter authorized, shall be deemed to be of the same issue and shall be entitled to payment from the same fund, without preference or priority of the bonds first issued. No such bonds shall be issued unless the necessity and amount thereof shall be approved by the state department of health. Prior to the preparation of the definitive bonds the legislative body may under like restrictions issue temporary bonds with or without coupons, exchangeable for definitive bonds upon the issuance of the latter. No such bonds shall be issued unless authorized by a 3/5 vote of the electors voting thereon at an election called and held in the manner hereinbefore set forth.

Such required payments shall constitute a first charge upon all the net revenues of the works. The legislative body may, at any time authorize such sinking fund or any part thereof to be used in the purchase of any of the outstanding bonds payable therefrom at the market price thereof, but not exceeding the price, if any, at which the same shall in the same year be payable or redeemable, and all bonds redeemed or purchased shall forthwith be cancelled and shall not again be issued. Revenues collected pursuant to this section shall be deemed the revenues of the works. No such rates or charges shall be established until after a public hearing, at which all the users of the works and owners of property served or to be served thereby and others interested shall have opportunity to be heard concerning the proposed rates or charges. 123.739 Water supply and sewage disposal or refuse systems; service to municipalities and individual users.

Sec. 9. No county shall have the power to furnish water service, sewage disposal service or refuse service to the individual users within any municipality without its consent. The foregoing shall not prevent the county from extending any sewage disposal system or refuse system into any municipality where in the opinion of a majority of the members elect of the board of supervisors the same is necessary to protect health or property in any adjacent municipality and from furnishing sewage disposal or refuse services to individual users therein. Any such extensions may be constructed along with the construction of the original system or thereafter.

123.740 Approval of systems or improvements; mergers; resolution or contract.

Sec. 10. The establishment of any county water supply, sewage disposal or refuse system or the making of county lake improvements shall be approved by a majority of the members elect of the county board of commissioners. Prior to such approval the county board of commissioners shall submit to the department of natural resources preliminary plans which provide for making the lake improvements for the department of natural resources review and approval. After the department of natural resources approval and county board of commissioners approval, the board of public works shall have power to acquire such system or make such improvements and to improve, enlarge, extend, operate and maintain the same, subject to any restrictions placed thereon by the board of commissioners in the resolution establishing the same or by this act. Any 2 or more systems established by any county and the areas served thereby may be merged or combined by resolution adopted by a majority of the members elect of its board of commissioners after which the merged or combined systems may be improved, enlarged, extended, operated and maintained under this act as a single system serving the total areas of the systems but no merger or combination shall affect either the rights and obligations acquired by any municipality by any contract with respect to any established system or the security of any bonds or the prompt payment of principal or interest thereon. A resolution adopted by the governing body of any city, village, township or charter township authorizing and approving a contract with respect to the financing of or service from any sewage disposal or refuse system constitutes, notwithstanding any statutory or charter limitation to the contrary, a permit to acquire, improve, enlarge, extend, operate and maintain the sewage disposal or refuse system within the corporate limits of the city, village, township or charter township, but no treatment or disposal plants, incinerators, works, grounds, filter beds or

123.741 Methods of financing.

Sec. 11. (1) The acquirement of any water supply, sewage disposal or refuse system or the making of any lake improvements or the improvement, enlargement or extension thereof may be financed in any 1 of the following methods, or any combination thereof:

(a) By the issuance of revenue bonds under the provisions of Act No. 94 of the Public Acts of 1933, as amended, being sections 141.101 to 141.139 of the Compiled Laws of 1948, or any other applicable act.

(b) By the issuance of bonds secured by payments to become due under contracts whereby 1 or more municipalities agree to pay to the county operating under this act certain sums toward the cost of the acquisition, improvement, enlargement or extension of any project which may be made hereunder.

(c) By the issuance of bonds in anticipation of the payment of special assessments made by the board of public works.

(d) By moneys advanced by a county operating under this act under agreements with a municipality or municipalities for the repayment of the same.

(e) By moneys advanced, from time to time prior to or during construction of any project, by any public or private corporation, firm or individual, in which event the county operating under this act shall reimburse the person, firm or corporation, with interest not to exceed 6% per annum or without interest as may be agreed, when funds are available therefor. The obligation of the county to make the reimbursement may be evidenced by a contract or note, which contract or note may be made payable out of the payments to be made by municipalities, under contracts as described in section 12 or 15, or out of the proceeds of bonds issued pursuant to this act by the county or out of any other available funds, but the contract or note shall not be deemed to be an obligation within the meaning of the provisions of Act No. 202 of the Public Acts of 1943, as amended, being sections 131.1 to 138.2 of the Compiled Laws of 1948.

Bonds, terms, issuance, tax exemption, sale.

(2) Bonds to be issued under this act shall be authorized by an ordinance or resolution approved by the board of public works and adopted by the county board of commissioners of the county operating under this act. The board of commissioners is authorized, by a 3/5 vote of its members elect, to pledge the full faith and credit of the county for the prompt payment of the principal of and interest on any bonds issued pursuant to this act. The county's full faith and credit may be pledged to the payment of principal and interest on revenue bonds notwithstanding any contrary provision in the acts referred to in subdivision (a) of subsection (1). If it shall become necessary for the county operating under this act to advance any moneys, other than its share of the cost of the project, for the payment of principal and interest, then it shall be entitled to reimbursement from any surplus from time to time existing in the fund from which the principal and interest are primarily payable. The bonds shall be issued in the name of the county and shall be executed by the chairman of its board of commissioners and its county clerk, who shall also cause their facsimile signatures to be affixed to the interest coupons to be attached to the bonds. The county clerk shall also affix to the bonds the seal of the county. The bonds shall bear interest at not more than 6% per annum payable semiannually except that the first coupon may be for any number of months not exceeding 10. The bonds and coupons shall be made payable in lawful money of the United States of America and shall be exempt from all taxation whatsoever by the state or by any taxing authority within the state. 123.742 Intergovernmental contracts; payment, tax levy, validation.

Sec. 12. (1) The county operating under this act and any 1 or more municipalities including the county itself may enter into a contract or contracts for the acquisition, improvement, enlargement or extension of a water supply, a sewage disposal or a refuse system or the making of lake improvements and for the payment of the cost thereof by such contracting municipalities, with interest, over a period not exceeding 40 years.

(2) In any such contract or contracts each contracting municipality shall pledge its full faith and credit for the payment of its obligations thereunder and if the municipality has taxing power, shall each year levy a tax, which shall not be within any statutory or charter limitation, in an amount which, taking into consideration estimated delinquencies in tax collections, will be sufficient for the prompt payment of that part of the contract obligations as shall fall due before the following year's tax collection. For the payment of contractual obligations incurred pursuant to this act, a township shall levy a tax only on the taxable property in the unincorporated areas of the township unless the township and a village have agreed that a part of the capacity in the county system allocated to the township by contract pursuant to this act will be used to serve areas in a village located wholly or partly within the township and the village has not itself agreed to purchase such capacity in the county system. If any contracting municipality at the time of its annual tax levy shall have on hand in cash any amount pledged to the payment of the current obligations for which the tax levy is to be made, then the annual tax levy may be reduced by that amount. For the purpose of obtaining such credit, funds may be raised by any municipality in any 1 or more of the following methods:

(a) By service charges to users of the system or lake improvements.

(b) By special assessment upon lands benefited.

(c) By the exaction of charges for the connection of properties, directly or indirectly, to the system.

(d) By setting aside any state collected funds disbursed to the municipality and usable therefor.

(e) By setting aside any other available moneys.

The foregoing tax requirements when applied to a county or township shall be subject to any constitutional tax limitation or any lawful increase thereof. Any municipality may agree to raise all or any part of its contract obligation by any 1 or more of the foregoing methods which may be available. The various powers in this act granted to any municipality shall be exercised by its governing body. Any contract heretofore entered into which complies with the provisions of this act, as now amended, is hereby validated.
